ABOUT ME

Passionate Computer Science student with a strong foundation in programming and problem-solving. Currently focused on full-stack web development, building skills in HTML, CSS, JavaScript, and modern frameworks to create efficient and user-friendly applications.

PROJECTS

- Netflix Clone (Front-End Project)**2024-
- Built a responsive Netflix UI clone using HTML, CSS, and JavaScript.
 - Implemented sections for movie posters, navigation bar, and hover effects for interactive design.
 - Practiced layout structuring and responsive web design techniques.

- Spotify Mini-Clone (Front-End Project)**2024
- Created a basic Spotify-inspired music player UI with play/pause functionality using JavaScript.
 - Focused on DOM manipulation and user interaction features.
 - Enhanced understanding of media controls in web applications.

- Portfolio Landing Page**2024 - 2025
- Designed and developed a personal portfolio landing page showcasing skills and projects.
 - Applied responsive design principles for desktop and mobile views.
 - Improved skills in web layout, typography, and clean UI design.

Other Coding Practice
Ongoing

EDUCATION

- Bachelor of Science in Computer Science**2023 - 2027
- Student at the affiliated college of Punjab University
